### MIRACULOUS ESCAPE FROM DEATH

Bridge Broke Down as Two Heavily Loaded Lumber Teams Were Crossing.

Waterbury, June 6.—What was at first supposed to be a very serious accident occurred yesterday afternoon about half past two on one of the bridges over Cotton brook in this town. Two teams belonging to William Smith and Sumner Stearns, heavily loaded with lumber, were crossing the bridge when it broke. The back part of the forward team went down and the horses and front part of the rear team. The drivers were thrown down and Glenn Stevens of the rear team had his clothing caught between a rock and part of the team so that his clothes had to be cut before he could be released from his precarious position. The wagon was held back from crushing his body by this heavy rock. Arthur Perry of the other team was bruised, but neither were seriously injured.

Their escape and that of the horses was little short of miraculous. Doctors were summoned from the village, a distance of five or six miles. Others went in automobiles and selectman G. O. Evans was one of the first on the scene. The bridge, as measured by him, was forty-five feet long and fifteen feet above stream. Both drivers are much lamed and sore and neither can work for some time.
